

STEFANO TRESOLDI

I help companies and public bodies resolve issues related to GDPR and data protection. Guiding them in prototyping, automating, and integrating artificial intelligence solutions into business processes, ensuring compliance with regulatory requirements, including those outlined by the AI ACT and AI intellectual property issues.

Consultant as GDPR specialist, DPO, Project Manager with more than 20 years of valuable experience gained in multidisciplinary fields; degree in Administrative Science at UNITO Law Department at University of Turin.

Strong, extensive experience in regulatory compliance role and specially on GDPR, privacy and data protection. Experienced implementing data protection in complex operational environments.

Since 2017 Stefano is member of the Data Protection Team at Unione Industriale Torino. Author at ICT Security Magazine - <https://www.ictsecuritymagazine.com/author/stefano-luca-tresoldi>

Working as GDPR specialist in international contexts for energy companies, tax collection company and automotive; I'm looking for a new professional challenge in an international context.
